TEST YOUR PET FIRST AID KNOWLEDE

You Can get the answers at www.JimHelemsDogPals.com.

PLEASE CIRCLE THE MOST CORRECT

1. T F Pet First Aid is the immediate care given to a pet that is injured or suddenly taken ill.
2. T F All human medicines will work on pets if you adjust the dosage for their weight.
3. T F As a general rule, normal temperature for dogs and cats ranges from 101° to 102.5° F.
4. T F Respiratory arrest can lead to cardiac arrest.
5. T F Rescue breathing is warranted when your pet has no heart beat and no breathing.
6. T F The Primary Pet Assessment takes several minutes and can include the skills and techniques of pet first aid, pet CPR, and pet rescue breathing.
7. T F If you suspect that your pet has been poisoned, it is more important to immediately get your pet to the veterinarian than to know what or how much of the suspected substance was ingested.
8. T F Using Pressure Points on dogs and cats is not advised to control bleeding.
9. T F The Black Widow spider bite is virtually harmless to cats.
10. T F Death by poisoning is one of the least common preventable pet accidents.
11. T F Baby snake venom is as poisonous as their parents' venom.
12. T F Cherry pits are NOT one of the many plant parts that are poisonous to your pets.

Scoring Key

- 5 or less Poor: Statistically you can do better by just guessing. I don't want you caring for my pet!
- 6 Correct Below Average: You know enough to be dangerous! Sign up for a Pet Tech Pet First Aid course NOW!
- 7-8 Correct Average: You only know a little bit more than your clients.
- 9-10 Correct Good: You must have had prior medical training or experience with humans and animals.
- 11 Correct Very Good: You are part of the new breed of Pet Care Professionals.
- 12 Correct Perfect Score! You can care for "The Pet Safety Guy's" pet anytime and maybe it's time you considered becoming a Pet Tech Instructor! Your pets are fortunate to have you.
